Family Services Guide
Welcome! In order to help you gain a better understanding of the grant submission process, we have put together this Family Services Guide!

Please be sure to read through this information carefully before scheduling your individualized expense orientation.
Our Fiscal Responsibility

We are grateful for the generous support of more than 30,000 donors per year in honor of our patients!

As a 501(c)3 not-for-profit organization, the Children’s Organ Transplant Association (COTA) receives donations to help offset transplant-related expenses. COTA then disperses funds to families to offset those expenses.

A crucial part of the donation process is to clearly state who is receiving the donations and how they will be used. Financial contributors must know their donations are donations to COTA and not to the patient directly. The donations will be used only to assist with transplant-related expenses, and are tax deductible to the fullest extent of the law.

Why is this so important?

While it is highly motivating to promote helping a local patient’s family with expenses, if the family receives money directly, it is considered taxable income and the contributor cannot receive a tax deduction. Therefore, the public should not be misled to believe their donations immediately go to the families. It should be clear that transplant families are the beneficiaries of COTA funds, and the campaign is raising funds that can be used by transplant families per our guidelines as they need them throughout their transplant journey.
Medical Transplant-Related Expenses:

(All medical expenses must be processed through insurance before submitting to COTA.)

- **Prescription Co-Pays:** Please provide the original prescription drug tag with patient information or a pharmacy printout listing patient name, medication, date and co-pay amount.
  
  *Note: Cash register receipts for prescriptions do not provide sufficient documentation. Please save the originals for your records.*

- **Co-Pays to Providers:** COTA may assist families with original bill and proof of payment **OR** COTA will pay the provider directly for bills in excess of $50.

- **Over the Counter Medications (OTC):** Receipts for OTC’s may be approved if the physician indicates in writing this is a transplant-related requirement.

- **Dental Co-pays:** May be considered if a specific situation warrants for the patient. (Routine dental visits and cosmetic dentistry services such as bleaching and orthodontia, are not considered transplant-related.)

- **Transplant-related Counseling Services:** With documentation, up to six months may be approved, after which a re-evaluation of the need may occur.
Non-Medical Transplant-Related Expenses
(for Patient and up to Two Caregivers):

Itemized receipts and proof of appointment must be included.

- **Mileage**: Clinic/lab/hospital visit mileage can be calculated by number of round trip miles $X$ number of trips $X$ IRS mileage rate. (Rate subject to change) Gas receipts may be considered with an extended hospitalization.

- **Food**: Reasonable food or restaurant receipts (grocery receipts are acceptable while hospitalized).

- **Hospital/Clinic Parking and Tolls**

- **Vehicle Rental**: If applicable due to distance or situation.

- **Air Travel**: Planning ahead for this expense, if at all possible, will avoid costly fares.

- **Lodging**: Reasonable rates for room and tax may be approved. Only room rates, tax and parking fees qualify.

- **Health Insurance Premiums for patient only**: Please provide a breakdown of plan costs per covered member.

- **Other**: COTA recognizes there may be other non-medical transplant-related requests made by the transplant team. These requests may be considered and discussed to determine eligibility. Additional documentation may be required.
Household Assistance at the time of transplant:

Due to IRS guidelines, COTA is unable to replace lost income.
Household assistance may be considered at the time of transplant only if a wage earner is on an unpaid leave of absence. Unemployment is not considered a leave of absence.
Household assistance may be provided on a temporary basis (typical length is 1-4 months).
Eligibility will be discussed during the Expense Orientation. If eligible, a Household Expense form and accompanying documentation will be required.

Non Allowable Expenses

Expenses an individual might normally expect to incur on a day-to-day basis while not at the transplant center do not qualify. Under most circumstances, these items are not considered transplant expenses and will not be approved.

These lists are not exhaustive, and the final decision of eligibility rests with the COTA staff. If you have a question as to the eligibility of an expense, please call the COTA office. We will give every benefit when reviewing the grant application. We understand that every patient’s need is specific and unique.
